THE LATEST AXON EVIDENCE RELEASE
New for the October release - Updated ALPR Flock integration, enhanced video playback, automated Community Request reminders, two new VR e-learning videos in Axon Academy, and more.

The October release is scheduled for October 25, 2023. See the **Full Release Notes PDF** for details, including a list of resolved issues. You can also watch the October release notes video highlighting all the updates. The Axon Evidence Maintenance Schedule lists the updated schedule times for your region. We don't anticipate any downtime.

The October Axon release is coming soon. Below is a high-level look at the changes, along with a link to the complete release notes with more details.

Take me to the release notes

What's New in Axon Evidence This Month
New for the October release -

- **Axon Evidence**: Latitude and longitude display added to the evidence details page.
- **Evidence Viewing and Playback**: Introducing a new video stitching feature, a **Review All On Page** shortcut button, and enhanced video playback.
- **Axon unlimited storage**: Cloud-based evidence archive storage.
- **Upload XT**: Improved error messages, enhanced functionality, and more.
- **Axon Redaction**: Updated Clips and Markers features, and resolved auto drifting issue.
- **Axon Justice**: Add to case functionality, Do Not Disclose item count, UI improvements, and more.

Axon Corrections: Introduced new configurable columns and additional metadata in the device inventory search page.

- **Community Request**: Automated Reminders for Individual Invites.
- **Case Management**: Case Evidence Matching will now work with evidence from Community Request across any status.
- **Investigate**: Version 3.3 introduces image export, report generation, and enhanced functionality.
- **Third-party video support**: Support added for new multi-stream video formats along with updated support for various file formats.
- **Single Sign-On settings**: SSO Settings page will be made available to all agencies with additional configuration options for admins.

Other Axon Product Updates

See the full release notes PDF for details on the following items.

- **ALPR**: Axon Flock integration now offers geographic search and vehicle fingerprinting.
- **VR**: New TASER 7 and TASER 10 VR controllers, along with six new TASER skills exercises added to the content library.
- **Axon Academy**: Two new VR videos focusing on traffic stop scenarios.
- **Axon Body 4**: Gets a stability focused firmware update in a phased rollout.
- **Fleet**: All MDCs running Fleet Dashboard must be updated before December or login will not be functional.
- **TASER**: Improved inventory tracking for HALT and INERT cartridges in Axon Evidence.
- **Axon ViewXL**: A ViewXL application update continues to roll out for Wave 1 agencies.
